

Keeping your accounts secure

Voya recognizes the importance of safeguarding your financial accounts and your personal information against the ongoing risk of fraud, cyber threats, and other unauthorized activity. This is essential to building a successful relationship and maintaining your trust. In general, your account numbers, PINs, passwords and personal information are the keys to your accounts. Remember that you are your own first line of defense when it comes to protecting your accounts and identity. Here are some important suggestions to consider to help you keep your accounts and personal information safe and secure:

General Password/PIN Security

- Use a unique password/PIN for each site where you maintain an account and regularly update your passwords/PINs. Never use your date of birth or Social Security number as your password/PIN.
- Don't allow social networking sites to memorize your passwords/PINs.
- Avoid writing down passwords/PINs.
- Don't share your password/PIN or answers to security questions with anyone and never put them in an e-mail.
- The strongest passwords are comprised of a chain of four unrelated common words.

Beware of "Phishing"

A phishing attack is an online fraud technique that involves sending official-looking e-mail messages with return addresses and links that appear to originate from legitimate businesses, often times with corporate branding. These e-mails typically contain a hyperlink to a spoof website. It is important to be suspicious of e-mails asking for your confidential information and look out for red flags such as urgent requests, unknown email addresses or discrepancies between actual and displayed hyperlinks. Voya will never ask you for your personal information by e-mail.

Monitor your accounts frequently

- Monitor your financial accounts frequently, and be sure to look for unusual withdrawals, deposits or transactions. Voya's online account access and mobile app make monitoring your account easy.
- Sign up for electronic delivery of important documents.
- Immediately open your statements and confirms to verify all activity. If you notice anything suspicious, call your financial institution immediately.

Take care of your computer and mobile devices

- Update your computer by installing the latest software and patches to prevent hackers or viruses from exploiting any known weaknesses on your computer.
- Install and update anti-virus software to protect your computer and to prevent hackers from installing malware or viruses on your computer.
- Install and update personal firewalls. A firewall is a hardware or software device that regulates the flow of information between computers and is often included in operating systems.
- Use only programs from a known, trusted source.
- Backup your important files on a regular basis and store the backups in a secure place.

How Voya is keeping your accounts safe

Voya takes numerous measures to safeguard the confidentiality, integrity, and availability of our systems, including authentication, monitoring, auditing, and encryption. Our work never stops when it comes to your security and we are constantly evolving our strategies to address and adapt to anticipated threats. We believe our proprietary data security programs and our proactive focus on “people, technology and process” give us an advantage in combating constant threats.

If you suspect fraud on your account, we will investigate the incident to determine the best course of action, which may include free credit monitoring or identify theft protection and possible reimbursement of financial loss.

Voya S.A.F.E.™ (Secure Accounts for Everyone) Guarantee

If any assets are taken from your workplace retirement plan account due to unauthorized activity and through no fault of your own, we will restore the value of your account subject to satisfying a few key steps. We believe that keeping your account secure is a mutual responsibility; the coverage Voya provides under the S.A.F.E Guarantee depends on you taking the following recommended action.

1. Register your account online.
2. Review your account information on a regular basis and keep your contact information current.
3. Promptly report any suspected identity theft or unauthorized activity.
4. Contact us if you receive any communication or alert that you did not initiate.
5. Practice safe computing habits.

What to do if you are a victim of a data breach

1. Consider changing any PIN or password used to access your financial accounts, especially if the PIN or password contains any part of your Social Security number or date of birth.
2. Sign up for account alerts or electronic delivery of notices from your financial institutions if available.
3. Order copies of your credit reports from the three national credit-reporting agencies. Then, look for accuracy or indications of fraud, such as unauthorized applications, unfamiliar credit accounts, credit inquiries, defaults and delinquencies that you did not cause.

What to do if your identity has been stolen

- Visit the federal government’s website identitytheft.gov for detailed instructions on how to report and recover from identity theft. This site provides streamlined checklists and sample letters to guide identity theft victims through the recovery process.
- Contact Voya and your other financial institutions and credit card issuer(s) to inform them that your identity has been stolen.

Take action on securing your accounts today.
